# Welcome Address

## Objectives

Dr. Sohini Ghosh  
Department of Education

New Education Policy, 2020 lays particular emphasis on the development of the creative potential of each youth of the country. It is based on the principle that education must develop not only cognitive capacities - both the 'foundational capacities' of literacy and numeracy and 'higher-order' cognitive skills, such as critical thinking and problem-solving abilities - but also personal, social, ethical, and emotional capacities and dispositions.

The rich heritage of ancient and eternal Indian knowledge and thought has been a guiding light for this Policy. The pursuit of knowledge (Jyan), wisdom (Pragyaa), and truth (Satya) was always considered in Indian thought and philosophy as the highest human goal.

According to NEP 2020 the teacher must be at the centre of the fundamental reforms in the whole education system. The new education policy must help to re-establish teachers, at all levels, as the most respected and essential members of our society, because they truly shape our next generation of citizens.

The new education policy must provide to all students, irrespective of their place of residence, a quality education system, with particular focus on historically marginalized, disadvantaged, and underrepresented groups. Education is a great leveller and is the best tool for achieving economic and social mobility, inclusion, equality and social equity.

These elements must be incorporated taking into account the local and global needs of the nation, and with a respect for and deference to its rich diversity and culture.

This National Education Policy envisions an education system rooted in Indian ethos that contributes directly to transforming India, sustainably into an equitable and vibrant knowledge society, by providing high-quality education to all, and thereby making India a global knowledge superpower. The Policy envisages that the curriculum and pedagogy of our institutions must develop among the students a deep sense of respect towards the Fundamental Duties and Constitutional values, bonding with one's country, and a conscious awareness of one's roles and responsibilities in a changing world. The vision of the Policy is to instill among the learners a deep-rooted pride in being Indian, not only in thought, but also in spirit, intellect, and deeds, as well as to develop knowledge, skills, values, and dispositions that support responsible commitment to human rights, sustainable development and living, and global well-being, thereby reflecting a truly global citizen.
