## Objectives of the Programme

**Course Objectives** The main objective of this course is to introduce the basic concepts in research methodology in Social science. This course addresses the issues inherent in selecting a research problem and discuss the techniques and tools to be employed in completing a research project. This will also enable the students to prepare report writing and framing Research proposals.

## Area of Discussion

### **Basics in Social Science Research**

1. Social Science Research: meaning and significance,
2. Objectivity in Social Science Research
3. Types of Research: Fundamental, Applied and Action Research

### **Research Design**

1. Experimental and exploratory research designs
2. Preparing research proposals: Selection of the topic, Review of literature, Identifying Objectives of the Study, preparing Research Questions,
3. Archival Research Methodologies

## Course Outcomes

- Students who complete this programme will be able to understand and comprehend the basics in research methodology and applying them in research/ project work.
- This programme will help them to select an appropriate research design.
- With the help of this course, students will be able to take up and implement a research project/ study.
- The programme will also enable them to collect the data, edit it properly and analyse it accordingly. Thus, it will facilitate students' prosperity in higher education.
- The Students will develop skills in qualitative and quantitative data analysis and presentation.
- Students will be able to demonstrate the ability to choose methods appropriate to research objectives.
